VILLAGE OF FREEPORT. TOWN OF HEMP-
STEAD. COUNTY OF NASSAU. LONG ISL-
AND NEW YORK. PRESBYTERIAN CEMETERY.
EXPLANATION.

Every cemetery in these collections is given a number, which is a great aid in many respects.

Every tomb-stone and separate name is also given a number, thus enabling any one, at once, to see how many bodies are buried in each cemetery, as shown by the names.

The oldest and most recent stones are listed at the end of each large cemetery, so as to determine the dates between which the cemetery was surely used.

An effort is made to retain all plots intact, and to list all monuments, thereby preserving as far as possible, every fact of relationship. Hence the need of cross-references, which are usually not numbered.

An attempt is made to give, as NOTES, the maiden names of wives and mothers. It must be understood that the names and dates in all such NOTES, do not appear on the stones. A great many more such notes could be added by the compiler.

A running title, on the top of each page, is carried all through this volume, thus obviating the necessity of continually referring to the table of contents on page two.

Bible records are added where they can be obtained. Marriages from Church records are also added from the large collection in the possession of the compiler. Hence this cemetery record is quite largely edited.

The index of persons is now made by the first names. An index of places is always added.

A space is left, especially, for filling in the middle names where only the initial is known: the author has given the full names where possible: all such additions will be gladly noted by the compiler, for a future edition, if he is notified of all such possible additions.

The author will be glad to get other cemetery records, to include in this and his other series, no matter where the cemetery is located, nor how recent it has been used, nor to what denomination the CEMETERY belongs. See the other type-written records by the compiler.
